

THE DEPUTY DIRECTOR OF CENTRAL INTELLIGENCE

7 July 1976

Mr. William W. Schwarzer
601 California Street
San Francisco, California 94108

Dear Bill:

It meant a lot to get your note concerning my nomination as DDCI. One of the high spots of my career in the Agency was to have met the fine people like you who comprise the staff of the Rockefeller Commission and who did so much to provide us with the guidelines to which we now adjust as we move into the future. There are problems to be sure, but the opportunities outnumber the problems by far.

As and when you travel to Washington be sure to give me a call. I would love to be able to benefit from your advice and counsel from time to time.
All the best.

Faithfully yours,
